

Niklas

Semi-automatic joining of inner frames

- ✓ Very simple to use
- ✓ Fed with the unpunched frames. Automatic joining and ejection
- ✓ Hydraulically powered
- ✓ Double-acting punch, with very high reliability
- ✓ For rational production, combine with Kurt - table for bending inner frames

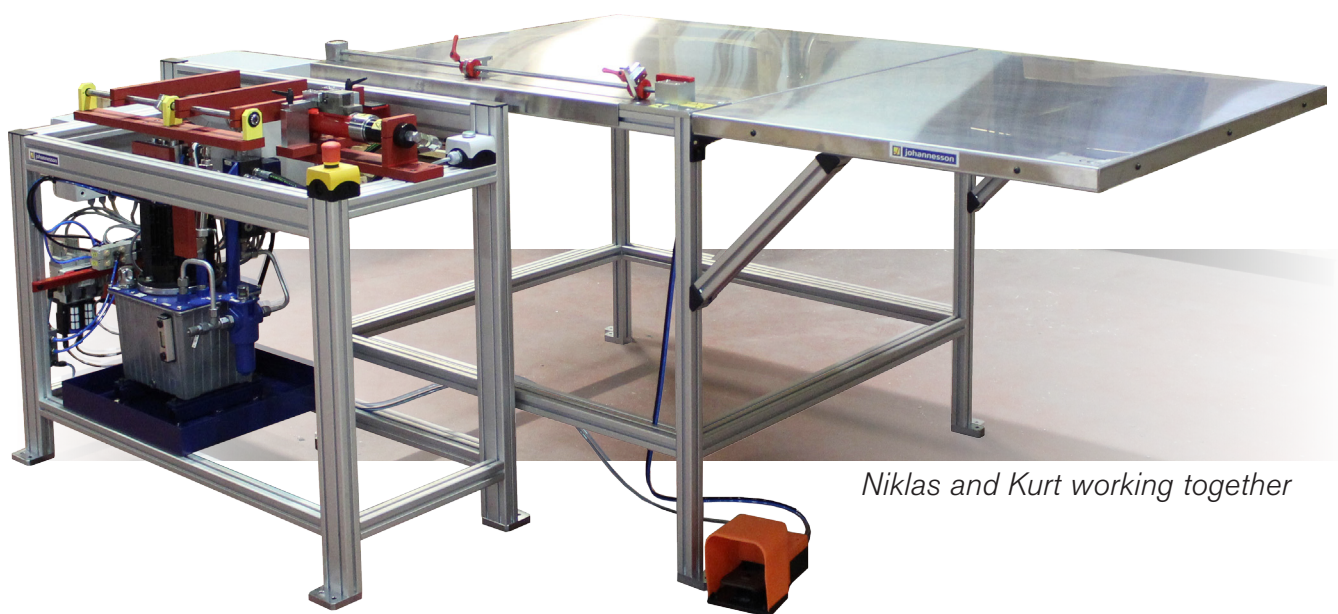

Technical data

Width:	480 mm
Length:	1390 mm
Height:	910 mm
Pneumatics:	Festo
Joining:	JONAS joining punch
Hydraulics:	Included or not included
Control system:	Mitsubishi
Power supply*:	Roger 1 or Roger 6

*) Can be altered to suit local conditions.

Subject to changes.
